EDUCATION

University of Science - VNUHCM

Computer Science Student

Ho Chi Minh City, Vietnam

Expected 2026

- **Honors Program:** Among the top students selected for exceptional academic performance.
- **TOEIC:** LR 665, SW 240

TECHNICAL SKILLS

- **Languages:** JavaScript/TypeScript, Java, Python, C/C++
- **Web Development:** React, React Native, Node.js, Express.js, HTML, CSS
- **State/API:** RESTful API, Redux, RTK Query, WebSocket
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Cloud/Tools:** Docker, Git, Jira, Vercel, Azure

EXPERIENCE

Tiger Tribe (a Heineken Company)

Mobile Developer Intern

Ho Chi Minh City, Vietnam

Jan 2026 – Present

- Developed and maintained production features for an internal mobile application used by Heineken employees, using **React Native** across **Android and iOS**.
- Developed **PlayLab**, a React Native application from the ground up, including project setup, feature development, and Android/iOS build and release workflows.
- Developed a universal **camera scanning interface** with horizontal/vertical guiding frames and real-time feedback, integrating a pre-trained **ONNX model** for real-time object recognition.
- Implemented **Redux** and **RTK Query** for state management, API caching, and data synchronization, and optimized camera frame processing and application data flow.
- Managed **Firebase** and **App Store Connect** configurations and release workflows for **Hustle** and **PlayLab**, including iOS distribution through **TestFlight**.

NAISCORP., JSC

Software Engineer Intern

Ho Chi Minh City, Vietnam

Jul 2025 – Dec 2025

- Developed features for the **Keenon Robot** Android 6.0 application using **Java/Kotlin** and **React Native**, including UI development and **WebSocket**-based TTS integration.
- Researched and integrated **Vietnamese ASR** into the **Boshi Robot** Android 10 application using **Java**, replacing the default Chinese ASR solution.
- Built the **Qt-based HealthMate Robot** application using **C++/QML**, integrating local and cloud **TTS/ASR** through **WebSocket** and **UDP**, and set up the aarch64 Linux cross-compilation environment.
- Contributed to the development of the **PVI.com** website using **ReactJS** and **WordPress CMS**, implementing Figma-based UI pages, integrating RESTful APIs, and migrating hardcoded content to CMS-managed data.

PROJECTS

AI-Powered Automated Web Testing System

Graduation Thesis

Jan 2026 – Aug 2026

- Developed an end-to-end **web testing platform** with **React/Vite frontend**, **Node.js/Express backend**, and **PostgreSQL**, integrating **Python Agent Worker**, **Playwright**, and **Gemini** for automated test generation and execution.

HONORS & AWARDS

- Vietnam National Olympiad in Informatics (2022): **Consolation Prize**
- Vallet Fellowship (2022) for **Excellent Students**
